

Racing Education Seminar

Sunday, March 11, 2012 8:45 – 5:00
Bahia Corinthian Yacht Club

Boat Handling & Sail Trim

Instructor: Peter Haynes

This seminar is about learning how to see and feel how our invisible power source interacts with our boats so that we may be able to maximize performance in all conditions. The Harbor 20 may be very simple, but it is also extremely sophisticated, with all the sail shape and trim controls found on any world class racing sailboat. Animated PowerPoint brings the concepts to life. Directed at all levels of experience, newer sailors will understand, possibly for the first time, how the boat works, and experienced sailors may learn new methods to communicate what they would like others to understand.

Cost: \$75.00 if postmarked by March 3
\$85.00 if postmarked after March 3

Cost includes course materials, continental breakfast, and lunch

Please make checks payable to: Harbor 20 Fleet 1
